

Research & Campaigns Quarterly Briefing

August 2026

Current work:

- We continue a watching brief on UK Government proposed and actual changes to disability benefits and the potential impact on our clients.
- We continue to be actively engaged in promoting Anti-racism and Black History 365 through presence at events and social media activities.
- We continue work on *Disproportionate Hardship: Exploring Links Between Ethnicity, Poverty, and Crisis-Support Need in Swansea and Neath Port Talbot*, a long term piece of research which we hope to be a partnership project.

What we've just finished:

- We published [*Behind the Statistics*](#): Our Evidence to the Timms Review of PIP.
- In the last 3 months our advisers have sent 13 Evidence Forms to national Citizens Advice, gained nearly £750,000 in income for our clients, and had just over £150,000 of debts written off.

What's next:

- We will continue working on *Disproportionate Hardship: Exploring Links Between Ethnicity, Poverty, and Crisis-Support Need in Swansea and Neath Port Talbot*.
- We will continue promoting anti-racism and Black History 365.

Any questions, comments or ideas please let me know.
